BUFFALO RELICS

SHIPPED TO OTTAWA

Pursuant to a message received by Mr. L. H. Putnam, a representative of the historical research department of the Dominion Government arrived in Blairmore on Friday morning last for the sole purpose of acquiring the dinosaur recently discovered in the sands underneath the big Putnam block.

The exact spot where laborers unearthed the skeleton was singled out for the camera and surveys of the geological department took measurements showing the distances to various points, but more particularly to decide as to what course the present Lyon Creek travelled over these flats thousands of years ago. Judging by the position of the skeleton in the sands it is thought that the huge creature may have fallen into the surging waters of the stream many miles to the south and was swept down to this point only to form the nucleus of an island that in centuries has grown to make the beautiful townsite now occupied by Blairmore.

Photos were also taken of "Jock" Baird and the workmen whose picks penetrated the huge skull. These with the buffalo remains will be assigned a prominent position in Ottawa, while Mr. Putnam through his discovery and manifested interest will become an honorary member of the Dominion Department of Historical Research.

By a vote last week, the people of British Columbia declared themselves favorable to bootlegging, which for some time has been rampant in that province. Alberta, by adopting the present same regulations, is rapidly eradicating the bootlegger and with a few minor amendments that claim might as well get out of the country.

TWO OLD TIMERS PASS OUT

During the week, two real old timers have passed to the Great Beyond, in the persons of Mrs. Isabella M. Burn, of Lundbreck, and Robert Connelly, of Bellevue, the former at the advanced age of 81, the latter at 84.

Mrs. Burn died at the home of her daughter, Mrs. Parker, at Nelson, B. C. She came to this country from Oregon in an old-time prairie schooner, with her husband and family, Mrs. Burn driving the stock, assisted by her young son, Hal. Since that time they have resided on the Burn ranch, about four miles north of Lundbreck, which is also known as Closeburn.

The funeral took place at Livingstone cemetery on Monday and was very largely attended. Among the floral tributes covering the casket were cards bearing the following names: The Family, Mr. and Mrs. John Kennis, Mr. and Mrs. George Heaton, Mr. and Mrs. C. Elton, Mr. and Mrs. G. W. Penn, Mr. and Mrs. J. Atkinson, Mr. and Mrs. J. Smith, Mr. and Mrs. J. Gerard, Mr. and Mrs. Charles Patton, Mrs. Madden and Family, Mr. and Mrs. A. M. Dejamore, Mr. and Mrs. H. C. Morrison, Mr. and Mrs. Walter Jackson, Mr. H. G. Frist, Mr. Jack Evans, A. M. and B. Connelly, Mr. W. Atkinson, Mr. H. H. Rogers, L.O.P. No. 20, and Livingstone Ladies' Club.

Mr. Connelly died at his Bellevue home on Wednesday morning, following but a few days of illness. Up to a few weeks ago, Mr. Connelly had been in enjoyment of excellent health. Even at such an advanced age, Mr. Connelly never required glasses with which to read an ordinary newspaper, and but a few months ago stated that he was looking forward to a four-mile walk to Blairmore some fine day.

Mr. Connelly was predeceased by his wife some sixteen years ago, when she disappeared from the home in Bellevue and no trace had ever been found of her and she was believed to have drowned in what is now known as Connelly's lake, a small lake in the Connelly townsite of Bellevue.

Mr. Connelly is survived by a brother and sister, residing at Pincher Creek. The remains are being taken to Pincher Creek today and interment takes place in the Pincher cemetery tomorrow afternoon.

PASS OLD TIMER

DIES AT BROOKS

Word comes from Brooks, Alberta, of the death of Mr. Amos Chatfield, which occurred there on Friday last.

Mr. Chatfield had reached his eightieth birthday. In the year 1898, Mr. Chatfield came out west, locating at Macleod, which at that time was a busy "cow town" and a R.N.W. M.P. post. He was a jeweler by profession, and followed his trade in Macleod for a few years, later moving to Frank, where he conducted a jewelry and watchmaking store for the period from 1909 to 1912. He then moved to Brooks to live with his eldest daughter who occupied the position of postmistress. All his children were at his bedside when the end came, except one son in Winnipeg.

Mr. Chatfield leaves a wife, four daughters and two sons—Mrs. Harry Berry, Pincher Creek; Mrs. Grantum, Macleod; Mrs. Murphy, Nanaimo; Mrs. C. L. Bambrick, Brooks; R. G. Chatfield, Brooks, and C. E. Chatfield, Winnipeg.

The remains were laid to rest in the Brooks cemetery on Sunday afternoon.

The Alberta hotel and the Greenhill hotel each received their licenses on Saturday last. The Alberta opened up on Saturday and for three hours served free beer. The Greenhill opened up the early part of this week, having to effect some changes to the interior arrangements to accommodate the service.

Arthur Brisbane says: "If the earth were absolutely round, as it will be in a few million years, the ocean would cover it about a mile deep everywhere." We must know how to prevent that. Mars, tens of millions of years older than the earth, will reach us by radio. If that sounds preposterous, remember what you would have said twenty years ago if you had been told that a preacher in Chicago some day would be heard in Los Angeles and Newfoundland in the same second.

## Prospects Are Brighter

A decided change has been effected in the feelings of Western people during the past few weeks, with the result that a new spirit of courage and hopefulness has replaced discouragement and despondency in many homes and even districts. This change is noticeable in the conversation of people. In the renewed interest they are taking, not only in their own affairs, but in all matters of public concern, and is being reflected in a more confident note among business men.

The cause for this better tone is not far to seek. It is largely to be found in one development—the rising price of wheat, although there are other contributing factors. On the date this article is written, No. One Northern cash wheat is quoted at a fraction of a cent under \$1.20 a bushel on the Winnipeg market, as compared with less than a dollar only a few weeks ago. The demand for wheat is strong in Liverpool, Chicago and Winnipeg, and the confident prediction of well-forged grain men is that the price trend will continue upward, and that the era of low prices has gone for this year at least.

The change has been brought about by a realization that the world production of wheat last year was very considerably over-estimated, coupled with a reduced acreage seeded to wheat this year, to some slight extent in Canada, to quite a considerable extent in the United States. The Argentine crop last year fell millions of bushels below expectations; the winter wheat crop of the United States shows a decrease of approximately one-seventh in acreage, meaning fifty million or more less bushels, while the spring wheat crop, exclusive of Durum, promises to be short of actual home requirements. Coupled with these various situations, and with Canada now in the very front rank as one of the chief wheat exporting nations of the world, it is not too much to say that the outlook for the West was carried on under almost ideal conditions, while the all-important June rains, with an absence of unreasonable hot weather, has resulted in the wheat rooting well and developing a strong growth.

The uncertainty which has prevailed for some time regarding the pool method of marketing has been definitely ended by the success achieved in securing the required acreage under contract in Saskatchewan for pool purposes, thus guaranteeing that the pool method of marketing will be in effect this year throughout the three Prairie Provinces. While actual experience alone will demonstrate the feasibility of the pool plan, the grain growers will at least have the assurance that their own interests will be well looked after, and this makes for increased confidence.

Another factor in the situation is that with the restoration of the Crow's Nest Agreement rests in full force, further reductions in freight rates on commodities of vital importance to the farming community will be in effect.

Still another factor is the rapid development of the Western route for grain shipments through the port of Vancouver and the extensive improvements being made to that port, and the provision of larger elevator facilities there to adequately handle this enormously increasing trade. The increase in grain shipments from the prairies to Vancouver last year was phenomenal, and at one time last year 42 vessels were in port. The statement is made that this year will show a still larger growth, and that commencing in September a fleet of not less than 200 vessels will operate out of Vancouver, including many tramp boats in addition to the vessels making regular calls.

Whatever may be the situation in other grain producing countries, the 1924 prospects are brighter for Western Canada than for some years past. Last year the West had no cause for complaint on the score of the size or quality of its wheat crop; the whole trouble was the low price which left a very small profit over costs of production and marketing, and in many instances no profit at all. Given a fair average crop this year, and substantially better prices—both of which appear likely of realization—a marked improvement in Western conditions is assured.

## Prorogation in July

Canadian Federal Parliament Has Much Business Yet to Dispose Of  
It is expected that the present session of the Canadian Federal Parliament will not prorogue before the middle of July at the earliest. There is still a considerable volume of work to be dealt with and even by eliminating the Wednesday evening vacation and sitting on Saturday mornings the business that Parliament must deal with cannot be cleaned up in less time than a month, or six weeks. Work on the completion of the tower that is to be built over the main entrance to the main building on Parliament Hill has begun, and it is expected, will be finished this year.

## Good Price For Wheat

A. Nicholson, a farmer in the Rosebud district of Alberta, recently sold ready for the mills to a flour mill company. The company paid Mr. Nicholson a fraction over 92 cents a bushel, the top price, and he realized \$23,000 for last season's crop of wheat. It was of the highest grade. Mr. Nicholson had an unusually high average yield and as he cleaned the wheat on his own farm there was no dockage. He saved charges on waste and fed the waste to his cattle.

## Growth of Alberta

Although it is only eighteen years ago that Alberta became a province, its population has increased four-fold, while the grain yield has increased twenty-fold. Even at the present low prices the total agricultural products of Alberta in 1923 were worth \$222,000,000.

# CHILDREN CRY FOR "CASTORIA"

A Harmless Substitute for Castor Oil, Paregoric, Drops and Soothing Syrups—No Narcotics!

Mother! Fletcher's Castoria has been in use for over 30 years to relieve babies and children of Colic, Wind, Flatulence, Wind Colic and Diarrhoea; allaying Feverishness arising therefrom, and, by regulating the stomach and bowels, aids the assimilation of food; giving natural sleep without opiate. The genuine bears signature of

Wm. H. Fletcher

## Tourist Trade Valuable

Amount Spent Last Year in Sweden Was \$5,000,000  
About \$5,000,000 was spent in Sweden last year by 50,000 tourists, according to estimates compiled from data collected by the Swedish Traffic Association. It has been possible to estimate from the business done by hotels, steamship lines, railroads, the larger places of amusement, etc., that the number of foreign visitors in Sweden has risen from about 25,000 in 1920 to about 50,000 in 1923.

The money brought into a country by tourist trade is usually spoken of vaguely as part of the "invisible trade balance," but experts in Sweden are now becoming interested in estimating these expenditures per capita.

Lieut. T. Segerstrale, director of the Swedish Traffic Association, has computed the average expenditure within Sweden by tourists as about \$100 for each person.

## Drives Out Rheumatism

Subdues Lumbago

Brings Ease and Comfort to the Sufferer at Once

## NERVINE

A King Over Pain

Those who seek permanent relief from the grinding pain of Rheumatism and Lumbago should read the letter of F. E. Normand, from Georgetown, who writes:

"I was fairly crippled with aching joints and Rheumatism. Nervine must have been what I needed, because it cleared up my trouble quickly."

"If you need a reliable, strong, penetrating pain remedy, one you can depend on, get a 25c bottle of Nervine today; it will make you well quickly."

## A Mother's Tribute

Sent Wild Flowers To Be Placed On Cenotaph

A police constable on duty at the Cenotaph was surprised by a postman handing him a package addressed to "The Policeman at the Cenotaph, Whitehall, London."

He carefully opened it and found that it contained a little bunch of wild flowers, packed with the greatest care.

With the flowers was a little note, asking the policeman kindly to place them on the Cenotaph, as the writer was unable to travel so far to do so herself.

The constable reverently complied with the modest request. The flowers were a mother's tribute to her dead son.—London Letter.

## CHILDHOOD CONSTIPATION

Constipated children can find prompt relief through the use of Baby's Own Tablets. The Tablets are a mild but thorough laxative which never fail to regulate the bowels and stomach, thus driving out constipation and indigestion; colds and simple fevers. Concerning them Mrs. Garand Dudge, Deming, Que., writes: "Baby's Own Tablets have been of great benefit to my little boy, who was suffering from constipation and indigestion. They quickly relieved him and now he is in the best of health." The Tablets are sold by medicine dealers or by mail at 25c a box from The Dr. Williams' Medicine Co., Brockville, Ont.

## A Huge Payroll

The payroll of the combined British Columbia timber interests is estimated to be not less than \$50,000,000. This represents at least one-third of the total industrial payroll of the province and, at a conservative estimate, proves the means of support for at least a quarter of the total population. There are over 5,000 firms exclusively engaged in the production, manufacture and handling of British Columbia wood products.

Corns are caused by the pressure of tight boots, but no one need be troubled with them when so simple a remedy as Holloway's Corn Remover is available.

## Something To Boast Of

Maubin, Britain, has the largest and most mosquitoes in the world. Scientists declare that detachments of mosquitoes swarm out to meet every visitor. They hang in fountains from the white awnings, the mosquito nets, the table linen and the position maps. Every window and crevice of the European houses in Maubin is protected by sliding curtains of iron gauze.

## Motor Graveyard

"Automobiles sometimes die young in the 'motor graveyard'—a lake near Hull, Eng., which lies beneath a high cliff—workmen for insurance companies have dragged up many new automobiles recently.

The route taken by Captain Roald Amundsen to his North Pole flight this month will be by way of Gams, Zof, Zolder, Zee, Bergen and Spitzbergen.

Minard's Liniment the Athlete's Remedy

## Curious Exhibit At Wembley

Insights of Sierra Leone's Notorious Society of The Human Leopards

One of the curious things to be seen at the British Empire Exhibition at Wembley is the "Barbina," or insignia of Sierra Leone's notorious secret society of the Human Leopards.

This dread organization, with others of its kind, has now been disbanded by the government, but while these savage gangs existed they terrorized the natives by a well organized system of blackmail and cannibalism.

Founded solely for cannibalistic purposes was the "Human Alligator Society." This was composed of a set of expert swimmers and divers, who would swim long distances under the water, spring out and grab some unwary one, who would be dragged under and drowned. To divert suspicion in case they were seen, they wore the hide and skin of a crocodile, or hid between two canoes.

Each member of this band was obliged, when so ordered, to furnish a fresh victim or he would be captured and despatched.

The acting member of the "Human Leopards," on the other hand, was disguised in the mask and pelt of a leopard. Should anyone refuse the demands of this tribunal, or otherwise offend it, the victim would be attacked from behind, and sharp iron claws would be dug into his throat.

## Editors Gone Touring

187 Weekly Newspapersmen Are Making Tour of Europe

One hundred and eighty-seven editors of weekly and semi-weekly newspapers throughout Canada, members of the Canadian Weekly Newspaper Association, left Montreal on the S.S. Melita, which sailed for Liverpool on June 11th for a trip to Europe.

The party, which is headed by W. R. Davis, editor of the *Brandon (Manitoba) Mercury*, and chairman of the association, will visit the principal places in the British Isles, including, of course, the British Empire Exhibition, and the battlefields of France and Belgium. It will be some time in August before the party will be home again. Several of the editors are accompanied by their wives.

## Difficult to Start

Aircraft in Arctic

Only Air-Cooled Engine Can Be Started Easily

After testing British aircraft within the Arctic Circle, Frank Courtney has returned and related his experiences. He says the cold was intense and difficulties were experienced in starting the engines. Oil had to be brought up to the boiling point before being put into the engines. The air-cooled engines start fairly easily, but steam had to be blown through the water jackets of the others to bring them up to a reasonable temperature for starting.

## Thinker's Cause Cancer

Do tarred roads cause cancer? City Councillor Josselin, of Paris, maintains they do. Pointing to the greatly increased mortality from cancer in recent years, he observes that it is particularly prevalent among workers handling tar. For this reason he recently demanded that the tarred roads should cease in the department of the Seine.

## On Any Hot Day

Clark's Cooked Corn Beef is ready to serve and provides a delicious, nutritious meal. No bone—no waste—Economic. "Let the Clark Kitchens help you to do less cooking in hot weather."

## To Increase Expenditure

Influenced by conditions of unemployment existing in the province the Ontario Government has decided to increase by \$1,250,000, its contemplated expenditure during the summer on highways. The original programme allowed for the expenditure of about \$5,000,000.

## For Frost Bites and Chills

Chills from cold from undue exposure to a draft and cold and frost bite from the wet wind of winter. In the treatment of either an excellent preparation is Dr. Thomas' Electric Oil, as it counteracts the inflammation and relieves the pain. The action of the oil is prompt and its application is extremely simple.

The Molesmen of India believe there are seven unlucky days in each month on which no new enterprise should be undertaken.

Glycerin makes an excellent lubricant for an egg beater or food chopper and does not taste in the food.

## West Will Discuss

Railway Problems

Situation To Be Studied At Conference In Winnipeg During July

With a view to reaching some definite policy respecting the railway situation in Northern Canada a conference between Dominion cabinet ministers and representatives of all provinces interested will be held in Winnipeg during the month of July. The exact date of the proposed meeting will be guided by the adjournment of parliament.

It will be the purpose of the gathering to secure the real facts in connection with the railway situation. Maps will be studied, data collected, reports of engineers reviewed, and costs computed. It is expected that some acceptable and workable plan for the future railway service of Northern Alberta and British Columbia will be reached. Together with other transportation questions of importance the Hudson's Bay Railway may come up for discussion.

The premiers of all the western provinces have studied the desire to attend while officials of Canadian Pacific and Canadian National Railways will be present.

## Unit To Live—Must Die

This verdict is rendered a thousand times every week—no corn can live; it must pass out, drop off, or Puhina's Extractor is applied to corns and warts. Use the old reliable "Puhina's" it never fails, 25c at all dealers.

## Millions For Terminals

Advance To Be Asked For Facilities In Vancouver Harbor

Legislation is to be brought down by Hon. Ernest Lapointe, minister of marine and fisheries, providing for additional facilities not exceeding \$5,000,000 to the Vancouver harbor commissioners to complete construction of terminal facilities in Vancouver harbor, for which plans, specifications and estimates have already been approved by the governor-in-council.

The advances may further be utilized in the construction of such additional terminal facilities as are approved and considered necessary for the proper equipment of the Port of Vancouver.

## Britain Behind In Poultry

Nigel Buxton, British minister of agriculture, presiding at a dinner in connection with the world's poultry congress, stated that both Canada and the United States are ahead of Great Britain in poultry matters. Last year Great Britain imported poultry and eggs to the value of \$70,000,000, he said. Her own output of poultry and eggs was greater than her wheat output and amounted to about \$61,000,000.

## First Protestant President

Gaston Doumergue, New Head of French Republic, Occupies Unique Position

For the first time in history France has elected a Protestant president. Gaston Doumergue, the new head of the republic, is a Calvinist, which in Canada would correspond to a Presbyterian. The election of Doumergue shows how wide is the breach between the state and the church in France and how small a part religion now plays in politics.

Previously, the president of France also has been a canon of the church of St. John Lateran, Rome, but, if it is doubted if the pope will appoint a non-Catholic to this post.

As president of France, Doumergue receives a salary of \$250,000 a year, thus making him the highest paid Republican head in the world.

## Lighting Safe Fences

If fence posts are of wood or cement, to safeguard stock from lightning, either put in a steel fence post every few rods or staple heavy fence wire the entire length of post in contact with the fence wires so as to ground them. Then if lightning strikes the fence, or a tree near the fence, the death dealing bolt will not follow for along the fence and kill stock that may have pushed against it in a storm. Of course, if the posts are of steel they ground the wire perfectly. Wire fences fastened to buildings should be grounded at the last post or two and at buildings.

## One of the commonest complaints of infants is worms, and the most effective application for them is Mother's Own Exterminator.

## Britain Behind In Poultry

Nigel Buxton, British minister of agriculture, presiding at a dinner in connection with the world's poultry congress, stated that both Canada and the United States are ahead of Great Britain in poultry matters. Last year Great Britain imported poultry and eggs to the value of \$70,000,000, he said. Her own output of poultry and eggs was greater than her wheat output and amounted to about \$61,000,000.

# CUTICURA

"Sir, I have no home," began the tramp, "and—"

"No taxes to pay, no rent, no coal bills, no worry over the rise in daily products!" Permitted me to congratulate you."

"I have no job, and—"

"Lucky man! No danger of being sacked!"

"But I am serious. I have no money and am a beggar."

"No temptation to spend it foolishly on able-bodied beggars. Why, you're a veritable child of fortune. Good day."

Meet in Winnipeg for the 1925 convention of the Canadian Manufacturers' Association. It is understood that Winnipeg will be chosen as the place.

Minard's Liniment for Failing Out of Hair

For Children's Baths

Cuticura Soap is ideal for children because it is so pure and cleansing, and so soothing when the skin is hot, itched or raw. Cuticura Talcum also is excellent for children.

Sample Book Free for All. Address: Cuticura, P.O. Box 100, Portland, Maine. Write for it today.

## NO BOARD OF CONCILIATION IN POSTAL STRIKE

Ottawa.—There is no possibility of the Government appointing a board of conciliation to investigate the postal strike. Hon. James Murdock, minister of labor, has stated. Mr. Murdock said that even before the postal workers went out on strike the appointment of a conciliation board to investigate the wage dispute would not have been possible. Salaries of civil servants come under the Civil Service Act, and the Government could not appoint a board of conciliation to revise the provisions of the Civil Service Commission.

"The main service of Canada must move. I am going to take, so far as I can, every legitimate means to move it." So declared Hon. Charles Stewart, acting postmaster-general, in the House when questioned on Government plans in the postal strike. Mr. Stewart reviewed the negotiations, closing with a Government offer to maintain the present rates for the lower paid men, with the addition of a promise to review the whole situation after the revision of rates had been concluded for the civil service as a whole.

The minister said that his personal sympathy was strongly with labor but he felt that it was the Government of Canada which must carry on business. (This statement was received with general applause in the chamber.)

He said he had told the men's committee that while he sympathized with them until they declared a strike, after that he had exercised all the ingenuity he possessed to carry on the postal service. As to whether the men who had gone out would be given their jobs back, he said that "while the light holds out to turn, the vilest slinger may return" but that this could not be continued indefinitely.

## Wembley Exhibits

### Farm Implements

Interest Shown in Working Model of Farm Tractor

London.—Visitors to Wembley are much appreciating the display of agriculture's exhibit in the Government pavilion. This display is designed to demonstrate the value of modern improvements in farming practice. Particular interest is being shown in an ingenious working model of a farm tractor carrying out a variety of operations. Although this miniature machine is only 1/36 of the actual size, it provides an excellent practical illustration of the many uses to which the tractor can be put on an up-to-date farm.

### Mars Coming Nearer

London.—It will be almost possible to touch the planet Mars with your fingers on August 28. On that date the planet will be as near the earth as it can be—a mere 34,569,000 miles away. Mars has not been that near in 100 years.

## HEAVY EXPORT OF WHEAT IS SHOWN FOR MAY

Ottawa.—Canada exported 41,000,000 bushels of wheat last month, or actually 30,000,000 more than during May, 1922. This is considered the best possible proof of what a big crop means to the country. These large wheat exports last month gave the country a favorable trade balance of \$3,500,000.

How badly Canada had the United States beaten in wheat exports last month is to be seen in the fact that the total shipments from United States of wheat grown in that country were only 2,511,000 bushels. That is to say, Canada's shipments were very nearly 13 times greater. The official figures of the United States government show that over four times as much Canadian grain went out through United States' ports last month as of the native product. To the United States, for shipment through the ports of that country, there went approximately 28,000,000 bushels of wheat last month.

Exports during the current fiscal year have got off to a fine start, their value during the first two months having been \$26,000,000 greater than those for the same months in 1922. Whether this can be kept up or not will depend on the size of the wheat crop. There is a quiet in the fact that the quantity in store in Saskatchewan, at May 30, was 24,286,000 bushels, or about three times greater than that of a year ago.

W. N. U. 1520

## Sir Henry Thornton Would Retain Merchant Marine

Ottawa.—A ship of 4,000 tons carrying a full cargo of grain and cattle would generally earn about \$20,525 on the grain and \$4,600 on the cattle, Sir Henry Thornton told the special house committee on National Railways and Shipping here. The earnings, he said, would total \$25,685 and the expenses about \$45,000. Sir Henry was definitely not in favor of abandoning the Canadian Government Merchant Marine, which was reaching out every day. He indicated the possibility of reducing capitalization.

## Will Erect Harding Memorial in Vancouver

U.S. Kiwanis Plan Has Support of Canadian Clubs

Denver, Colo.—A large granite and bronze memorial to President Harding is to be erected at Stanley Park, Vancouver, it was announced at the eighth annual convention of the Kiwanis Club International. The late president was a charter member of the Kiwanis Club of Marion, Ohio, when he was a United States senator. The site was chosen because it was the site where the late president made one of his last public addresses, and one of his expressions in that address concerning the peace which exists between Canada and the United States and in view of the further fact that he was a member of the Kiwanis with 1,775 clubs in cities of Canada and the United States.

The plan for the erection of such a monument has the whole-hearted support of the Canadian Kiwanis Clubs, as evidenced by the report of the Canadian chairman of the international committee of public affairs, Walter Taylor, who declared: "Whatever the memorial to President Harding will be, we absolutely decline to be left out of it."

## Chinese Attack Immigration Rules

Coast Orientals Are Registering, But Express Censor Disapproval

Victoria, B.C.—A formal attack on the federal immigration regulations which compel the registration of all Chinese nationals resident in Canada on or before June 30, was made in a complaint lodged with the immigration department by David C. Lew, representing an influential body of Vancouver and local Chinese business men.

The complaint, in writing, states that the measure will be ignored and that prosecution will be welcomed to test the legality of the provisions. The regulations, say the complainants, are a discrimination against naturalized Chinese and those residents in this country for a number of years. The greater part of Chinese here are registering, although keen disapproval of the regulations is shown.

## Most Deepen St. Lawrence

U.S. Secretary of Commerce Says This Is Inevitable

Montreal.—"The deepening of the St. Lawrence to allow ocean-going boats to enter the great lakes basin is inevitable," said Herbert Hoover, United States secretary of commerce, who was here with other members of the United States section of the St. Lawrence Waterways Commission. Mr. Hoover stated that the fast growing pressure of population in the middle-west of both Canada and the United States pointed to only one thing and that was the completion of the deep waterway scheme. "No matter," said Mr. Hoover, "how the issue is fought by eastern capitalists, no matter how eastern interests squint and fight, the end will be the same."

### Elevator At Edmonton

Ottawa.—A vote of \$1,000,000 for construction of the Government grain elevator at Edmonton was passed in the House of Commons in committee of supply. Hon. Thomas A. Low, minister of trade and commerce, stated that the elevator would have a capacity of 2,000,000 bushels. It was hoped that it would be ready by the time the next crop was moved.

### Propose Limited Bank Note Issue

Ottawa.—The note issue of a bank would be limited to 50 per cent. of its unimpaired capital, while the finance department would control the printing and issuing of all bank notes under two amendments to the Bank Act, notice to which was given to the banking committee by C. G. Cooke, Progressive, MacLeod.

### Cyclone in Dakota

FAIRO.—Six persons were killed and several buildings destroyed in a cyclone at Dickinson, N.D., according to reports reaching Fargo.

## World's Wheat Crop

Considerable Reduction In This Year's Crop Is Indicated

Ottawa.—A cablegram received from the International Institute of Agriculture, Rome, stated that the latest official estimate of the 1923-24 wheat crop of Argentina is 247,000,000 bushels, against 259,000,000 previously reported, and 1,450,000,000 bushels in 1922-23. The exportable stocks of wheat remaining in Argentina amount to 63,603,000 bushels. The production of flax seed in Argentina is 53,580,000 bushels, against 63,141,000 last year, and 76,645,000 against 55,116,000.

The total production of wheat of the 1924 crop in Belgium, Bulgaria, Spain, United States and India, the only countries for which official estimates have been received, is 1,241,000,000 bushels against 1,251,000,000, the total for the same countries in 1923.

The weather in May was favorable for cereals in Northern and Central Europe, and in the Balkans. There was drought in Southern Italy, Southern Russia and North Africa. The general situation was inferior to that of last year.

## Will Float Large Loan

Dominion Government to Use Proceeds For Refunding Victory Loan

Ottawa.—The Dominion Government intends to float a loan of three hundred million dollars. Hon. James Robb, acting minister of finance, will shortly bring down legislation to give the necessary authority.

Proceeds of the loan will be devoted entirely to refunding a five-year victory loan for \$107,855,000 issued in 1919, falling due on November 1 and the proceeds of the new loan will take care of its other maturing obligations.

Decision has not yet been reached whether the new loan will be floated entirely in Canada.

### Survives Two Disasters

San Pedro, Cal.—In 1907, when a typhoon aboard the United States battleship Georgia blew up and many men were killed and injured, F. J. Rhyme, now a chief turret captain, was a survivor. Swathed in bandages, Rhyme lay on a cot aboard the hospital ship Relief, one of the 12 survivors of the turret explosion which on June 12th, claimed the lives of forty-eight men aboard the U.S.S. Mississippi.

### Alberta Crop Conditions

Calgary.—Shattering records established last during, during one of Alberta's most bountiful harvests, wheat is already more than 15 inches above the ground in some districts of Alberta, with plenty of moisture, and with the general condition of the crop excellent, according to the mid-week report of the Canadian National Railway, issued here.

### Wins Cup For Belgium

Brussels.—Lieutenant Ernest De Myster, piloting the balloon Belgium, was proclaimed winner of the Gordon Bennett Cup race. Lieut. De Myster landed at St. Alban's Head on the English Channel, approximately 600 kilometers from the starting point. It was the pilot's third consecutive victory, thus clinching the cup for Belgium.

## SMALL PROFIT IN OPERATION OF ELEVATORS

Ottawa.—Administration of Government grain elevators was discussed in the House of Commons when an issue in the estimates of \$140,000 came up for approval and was finally passed. Thomas Sales (Progressive, Saltcoats) renewed his attack on charges of elevator service, claiming that enormous profits had been made. To date, Government elevators had made nearly \$4,000,000, he said, according to figures supplied to him by the department itself.

Hon. T. A. Low, minister of trade and commerce, said the statement of receipts and expenditures obtained by Mr. Sales did not include many items of expenditure properly chargeable to the operation of the elevators. Actually there was little profit balance, and in the Balkans. There was drought in Southern Italy, Southern Russia and North Africa. The general situation was inferior to that of last year.

The minister informed the committee that building of new elevators was charged to current and to capital account. A. L. Beaulieu (Progressive, Provencher) objected to this, and stated that new post office buildings were charged to capital account. O. H. Gould (Progressive, Assiniboia) added nothing of reasonable depreciation from the Government elevators.

John Millar (Progressive, Qu'Appelle) asked whether it was the policy of the department that the grain should pay for all services rendered by the elevators. The information given by the minister did not enable the members of the committee to determine whether or not there had been a surplus or deficit in the operation of the elevators. Without wishing to cast a slur on the minister's department, he really felt that the accounting in connection with these elevators had not been well done. The doubt was as to whether the minister knew himself whether there was a surplus or not.

## Diamonds Recovered From Garbage Dump

Toronto Woman Threw Jewel Box Away By Mistake

Toronto.—Prompt investigation on the part of the street cleaning department resulted in recovering between \$2,000 and \$3,000 worth of diamonds from the garbage dump. Mrs. Wheeler telephoned to the City Hall that she had by mistake thrown a jewel box into the garbage can. The department traced the garbage cart which had emptied the can and recovered the diamonds from the dump.

### Jeopardize Democracy

Paris.—Deputy Cachin, leader of the Communists in the French Chamber of Deputies, launched an attack in the chamber on the experts' report, which he declared was a method of Anglo-American financiers for getting their hands on Europe. "The American finance is going to be the ruler of Germany," he said. "American and British financiers will prevent you from governing in the interests of democracy."

## THE JOB KILLER

"Five thousand Canadian forest industries, with their half a million dependents and two thousand towns prepped up on nothing more secure than spruce and pine and fir. Unless the people of Canada, who use the woods for work of play, stop this ravenous business of starting forest fires, Canada will be faced with an exodus of population which a century of effort will fail to remedy."

—Canadian Forestry Association.

## Preference Is Defeated In British Commons

London.—Following a two-day debate on the question of adopting the preference resolutions endorsed by the Imperial Economic Conference in 1911, the House of Commons took a vote on the first four conference resolutions, relating to preferences in the British market of dried fruits, tobacco, wine and sugar, and defeated all four by a narrow majority. Leader Baldwin, of the Conservative party, who has championed the resolutions, agreed that no purpose could be served by voting on the remainder of the conference programme. The vote was 278 to 372.

## Celebrates Jubilee

Winnipeg Observes Fiftieth Anniversary of City's Incorporation

Winnipeg.—Amid joyous celebrations the citizens of Greater Winnipeg on June 18 joined in observance of the fiftieth anniversary of the city's incorporation.

Graced with ideal weather the day's programme of events was launched with civic ceremony. Buildings, homes and automobiles were gaily decorated with flags and streamers, while the principal streets presented a gala appearance.

Unrivalled in splendor was the jubilee parade, which included nearly 250 floats, depicting the great development of the city from the days of the early settlers up to the present time. From the starting point on Broadway, it took the procession, almost three miles, more than two hours to pass over the stretches of the route. The parade attracted one of the largest holiday crowds in the history of the Manitoba capital. Every street along which the triumphal procession passed was thronged with people, those who had travelled from great distances in order to attend the festivities.

## Congress Within Right In Excluding Japs

Reply to Protest Cordial But Intimates Matter Is Closed

Washington.—The reply of the United States to the Japanese protest against the exclusion provision of the Immigration Act, made public here, is cordial and friendly in tone but at the same time makes it clear that the exclusion provision in no way trespasses upon any written or implied obligation on the part of the United States. Secretary Hughes points out that Congress was wholly within its right in the exercise of the power of exclusion, and that the action taken is "mandatory upon the executive branch of the Government and allows no latitude for the exercise of executive discretion as to the carrying out of the legislative will expressed in the statute." The construction generally placed upon the United States note is that it conclusively demonstrates the view of the Washington Government that the exclusion law is a closed incident and that attempts to modify or alter its terms is to be expected.

## Builds Special Aeroplane

German Factory Completes Machine For Japanese Government

Copenhagen.—A special aeroplane, two years in the making, has been completed by a German factory here for the Japanese Government and now is ready for delivery. The machine cost \$135,000 and is capable of making 248 miles an hour and will carry 12 passengers. The machine was constructed under the supervision of Japanese engineers and flying experts, but the use to which the Japanese Government affords to devote it has not been explained.

### Has Travelled 1,000,000 Miles

Belfast.—Mrs. William Reed, the wife of a sea captain, is believed to be the world's most travelled woman. She has a record of having journeyed 1,000,000 miles. Although she has rounded Cape Horn 17 times she has never passed through the Straits of Magellan. She has crossed the line 108 times.

### Girl Was Incendiary

Los Angeles.—Josephine Berthelone, aged 14, now an inmate of the juvenile hall here, confessed to having set fire to the Hope Development School at Playa Del Rey, near Los Angeles, May 31, when 24 lives were lost, according to an announcement by District Attorney Aaa Keys.

The Lewis machine gun, famous during the war, is being eclipsed by the new Browning, which weighs less than 15 pounds, can be fired from the shoulder or the hip, and fires 30 cartridges in less than two and one-half seconds.

## PROPOSE PLAN TO GIVE AID TO CATTLE INDUSTRY

Ottawa.—The Government has a definite plan whereby the price that the farmer receives for his cattle will be increased to a larger amount than he has been getting in the last few years. This the minister of trade and commerce told the House in answer to a question. The minister said that the Government is going to investigate the question very thoroughly, he said. He hoped before the session ended to be able to submit to Parliament the result of his progress so far, and get from the House an opinion on the wisdom of the steps which the Government proposed to take to reduce the cost of marketing Canadian cattle. These plans were to be made public soon.

The discussion arose on a vote of \$10,000 for an inquiry into ocean freight rates. The protests from the Progressives were summed up in the speech of L. P. Bancroft, of Selkirk, who said that unless ocean rates for cattle could be considerably reduced the Canadian farmer might as well get out of the cattle-raising business right away.

## Will Assume Military Control Of Germany

League of Nations Will Eventually Take Work of Allies

Geneva.—That the League of Nations will eventually take over the military control of Germany now exercised by the Allies, was recognized when Lord Parmoor, of England, and M. De Jouvenel, of France, reached a full agreement before the League of Nations Council, on preliminary steps for League military control of Austria, Hungary and Bulgaria.

The question was brought before the League by Britain, but De Jouvenel, addressing the council, declared that the plan which the League will adopt for the lesser or central powers, necessary will serve as a basis when the question of German control comes up. League delegates here unanimously declared that the statement marks a turning point in European policy, as decisions which the Allies have dictated to the League of Nations will be entrusted to the League under the plan.

## Syndicate Bidding For Great Eastern Railway

London Financiers Seeking Particulars From British Government

London.—The negotiations which were entered into some months ago for the sale of the Pacific Great Eastern Railway of British Columbia to a powerful group of London capitalists are likely to have a favorable result. Two syndicates of British financiers are inquiring further, for full particulars relating to the road, the price the Government of British Columbia is willing to accept, and the conditions which would be made to the company taking it over.

The Pacific Great Eastern Railway was built by the British Columbia Government. It was intended to give a north and south route through the province and eventually to connect with the Peace River district. So far, its operation, has resulted in an annual loss to the province.

## Metagama Reaches Port

Big Liner Damaged in Collision With Italian Steamer

St. John's, Nfld.—Badly holed as a result of a collision with the Italian steamer, Clara Canus, off Cape Race, the C.P.S. liner Metagama reached the port of St. John's. The big liner had a very heavy list to port as she came through the Narrows and showed every sign of being in great difficulty, though she was making way slowly under her own steam. The Italian ship had her bows badly crumpled in, and present all the appearance of a ship that has been in the very worst sort of a head-on impact.

### Tramway Men Get Increase

Montreal.—Employees of the Montreal Tramways Company have consented to a three-year agreement for an increase of three cents an hour in wages and five cents an hour for Sundays and holidays. About 5,600 men were affected. The men asked for a straight increase of seven cents an hour.

### Anti-Saloon Drive

Philadelphia.—A police campaign to close 100 saloons a day until all of the 1,500 establishments still operating in this city are forced out of business, was launched by Director of Public Safety Butler.

IT PAYS TO READ

ADVERTISEMENTS

You've often heard the saying, "It pays to advertise." That is true. And it also pays to read advertisements—pays you. If you read advertisements consistently for any length of time you will agree that this statement is also true.

It pays you money saved. There are many real bargains offered from time to time in the advertisements appearing in this paper. Watch for them.

It pays you in satisfaction. When a merchant asks you to come to his store he obligates himself to sell you quality goods as "advertised." You have a right to expect satisfaction from what you buy and get it.

It pays you in money saved. There you know exactly what you want to buy and where you want to buy it, you don't have to "look around" and waste time finding it.

Don't you want to save money and time? Wouldn't you like to be sure of getting satisfactory service and quality goods every time you go to a store? Then read the advertisements and patronize the stores which can serve you best.—Successful Farming.

## TOO MUCH LAW IN CANADA

By the laws of Canada those five learned judges of the British Columbia Court of Appeal who yesterday upset the murder conviction against Chong Sam Bow and ordered him a new trial, apparently had no choice in the matter. They were bound to a legal technicality and could not get away from it.

But Canadian law has become a cumbersome mass of complexities if it is going to cost this Dominion thousands upon thousands of dollars, much valuable time and six trials to decide what to do with a man who shot and killed another.

The merits of the Chong Sam Bow case cannot now be discussed here. But the man is either guilty or not guilty. He should either hang, be locked up as insane or acquitted. This succession of trials and wrangling over technicalities simply show how too much law and too many legal regulations are preventing the courts of Canada from administering quick, sure justice.

What Canada wants is more reliance on the good sense of our judges and fewer laws and technicalities to bind their hands.—Vancouver Sun.

We have been watching newspapers from all corners of the province and have so far failed to notice where any individual received more than a dollar fine for "stealing a ride" from a railway company, and in most cases the apprehension follows a complaint lodged by the railway company. The public are unable to understand why, down in this neck of the woods, that the unfortunate individual, who through absolute hardship, is driven to ride from one town or place to another on the roof of a lumber or coal car in quest of a means of earning an honest livelihood; should be subjected to penal servitude. This is what is actually happening in Blairmore, and it is time the public, or at least the department of justice should wake up to the fact. Slavery days should be over, and so should be the days of manufacturing slaves.

At a convention of the Postmasters Association held at Montreal, T. J. Cumberland, postmaster at Pincher Creek, was elected an honorary president.

## CALGARY EXHIBITION

## AND STAMPEDE

Ride 'em Cowboy! Milk 'em Cow! Typical rangeand expressions will be the order of the day during the week of July 7th to 12th, at Calgary, Alberta, when natives of that famous "City of the Foothills" are holding their annual frontier frolic known as "The Stampede." In conjunction with the Calgary Exhibition.

Everybody has heard of the Western Frontier Day celebration that is held each July in the progressive Alberta city. Thousands from all over the world have witnessed this unique combined Exhibition and Stampede, where are shown with historical correctness every phase of genuine western life, from before the coming of the white settlers up until the present day. The opening of the gigantic celebration is the famous Stampede Parade, five miles in length, in which appear hundreds of Indians with their ponies, travois, dogs and full ceremonial regalia, early settlers and oldtimers, men and women who pioneered the way across the vast unsettled prairies of the Northwest Territories and paved the way to make the Canadian West the inland Empire that it is today.

Hudson Bay Company factors with the Red River carts, ox-teams, stage coaches, veterans of the 1874 Royal North West Mounted Police, cowmen and the round-up outfits of cowboys, wild horses, buckers, wild cattle, and every type and character that has gone to make the West a local picturesque as history provides.

Thousands of dollars in cash prizes as well as several beautiful sterling silver trophies worth thousands more are awarded to the cowboys and cowgirls in the exciting contests of the sport of the range. Sports that require nerve, skill and strength. The funny wild range cow milking contest, the Indian races, the packing contests, riding of wild horses and wilder steers, large Indian encampment, old Hudson Bay Trading Post in active operation, chuck wagon races, California Cart races, Old Time Cowboy Ball, everyone in Calgary attired in Cowboy costume, headed by George H. Webster, Calgary's own Cowboy Mayor, waiting to extend the hand of greeting to every visitor. All this in conjunction with the Calgary Exhibition, in itself, is one of the greatest displays of the agricultural and industrial development of the Canadian West, which has justly earned the title of "The Show Window of Western Canada" and make one decide that these westerners have an annual holiday week that could not be duplicated in North America. Surely one's impulse is to go to Calgary Stampede Week, and Western.

At Fernie when the Home Bank crashed, there went into the vortex a fund of about six thousand dollars that had been gathered together as a result of a number of Dominion Day celebrations, to provide a swimming pool and playground for the children. At Ottawa, a day or two before the crash, Hon. Jas. Murdock, from knowledge he had of the impending suspension, was able to withdraw a personal deposit of four thousand dollars, preferring cash, taking no chances with a cheque, and Premier King, in a fine play of words, says the minister was not using information he had to profit himself personally, but merely to protect himself from loss. Mr. Murdock at the same time is paying the money back for the sake of appearances. Why pay it back if there was no wrong in taking it? The honorable minister seems to have a penchant for committing political faux pas.—Cranbrook Herald.

Take the knockers out of Blairmore or any other town and the town would almost disappear. Thus, knockers must be a necessity to some extent. We have knockers of every good movement—golf, board of trade, municipal affairs, societies, school affairs, the beer system, the church, state, unions, and everything else conceivable.

## HILLCREST HAPPENINGS

Mr. and Mrs. Makin are spending a few days' vacation at Monarch. F. Willets and family are spending their vacation with friends in Calgary.

The dance held in the Union Hall on Monday night was not very well attended, owing to the bad roads and other causes.

Messrs. Dudley and Evans, who bought the skating rink, are busy dismantling same for the purpose of erecting a residence for Evans.

Four men had a radio. And they put their wires high. Another man had a radio. And he put his wires low— And it don't rain—no mo!

Ed. Royle was seen in a new role the other day, as umpire for the girls' basketball team on the school grounds. All went well until the ball dropped where some animal had been and that finished the game.

Quite a number attended the Methodist church on Sunday evening to listen to the Rev. H. Peters, of Bellevue, preach his farewell sermon. Harry, as he is most popularly known, will be greatly missed in this district, especially in Oddfellows' circles.

A most pleasant time was had at the Castle Hall a few nights ago, when a whist drive was staged by the Pythian Sisters. It was one of the best times ever held in Hillcrest and put an old-timer thinking about the good old days of ten years ago. The ladies' prize was won by Mrs. (Dr.) Rose, the ladies' booty by Mrs. Day. The gentlemen's first prize went to Mr. W. Hutchinson and the booty to "Spark Plug" Grant. After the cards were cleared away, a most enjoyable supper was partaken of. The rest of the evening was spent in dancing. Mrs. Tonks, Ed. Royle and Joseph Royle supplied the music.

Messrs. Smith Bros., of Blairmore, have established the second saddle horse and outfitting business at Waterton. They have a string of twenty excellent horses and new saddle and pack equipment and will cater specially to short pack trips into the scenic points lying farther back in the mountains of this park. Their corrals and headquarters will be just below the main entrance gate.

The storm of last Friday night was the most severe ever felt in this district at this time of the year. Snow to a depth of fully five inches covered the ground at an early hour on Saturday and many trees, large and small, were damaged by the weight of the snow.

A dance will be given in the Union Hall at Hillcrest on the night of Monday, July 7th.

### THE PASS FIFTEEN YEARS AGO

(From Frank Paper, 1908)

March 4—Writs were issued last week for the provincial election to be held March 22nd. The unhoped-of short time allowed has been the means of politicians getting busy during the week. The Conservatives led off by holding a convention at Frank. The convention was out and dried for H. E. Lyon, of Blairmore, and the nomination he received at Red Deer was ratified. J. A. McDonald yesterday announced that he would be a candidate for the Liberals.

March 11—Principal Huston's report for the Frank School for the month of February credits the following with regular attendance and general proficiency: Standard V.—Janet Stene, Marguerite Lang, Gordon Steves, Lillian Thomas. Standard III.—Bella Beebe, Edgar Thomas, Pearl Beebe. Standard II. Senior.—James Stene, Maggie Burrows, Joe Boyd, Margaret Stene. Primary Department.—John Schmidt, Martha Ptahak, Bella Stene, Anton Dypolt, Yaraslow Dypolt, Rodi Kroll, Christina Schmidt, Nellie McVey, David Nicoll, Ruth Brown.

Capt. W. A. Beebe, of Blairmore, went to Lethbridge the first of the week to appear before the railway commissioners in connection with the proposed change of the station site at Blairmore. He states that it is expected the work of changing the line will be started in a few weeks.

Charles Chestnut sustained a serious injury while at work at the new tunnel being driven by the West Canadian Collieries at Blairmore, a fragment flew, striking him in one eye. The eyeball was badly injured, but as the pupil was not touched Dr. Malcolmson hopes to save the eye.

Under the direction of Superintendent Charles Emerson, the Bellevue mine of the West Canadian Collieries

is making great progress these days. Last Monday a new output record was scored, when a little over 1400 tons was shipped out one shift.

J. M. Carter left for Banff the first of the week, to look after the interests of H. E. Lyon, the Conservative candidate, in the northern part of the constituency.

Capt. W. A. Beebe, anticipating the good things that are now in store for Blairmore, is building two nice dwellings for rent purposes.

A baby girl was born Tuesday to Mrs. John McDonald, of Frank.

Mrs. D. A. Sinclair, of Blairmore, gave birth to a baby girl on Monday.

March 18—Official nominations for the election contest were made before Returning Officer Alex. Cameron at Coleman on Monday and three candidates are in the field. The nomination of Mr. J. A. McDonald was first made through his agent and campaign manager, Harry J. Matheson. His sponsors were: Barney Stitt, J. F. Wilson, H. J. Matheson, Edward Ash and Michel Rose. L. E. Drake next appeared as agent for Mr. C. M. O'Brien. O'Brien's sponsors were: T. Thompson, D. Reid, W. Graham, A. Rogers, L. E. Drake, F. W. Goodrich and M. Burke. T. B. Martin, solicitor, filed the nomination of Mr. H. E. Lyon, whose nomination was signed by Messrs. S. Murchy, G. M. Cook, T. E. Appleby, G. A. Mills, J. H. Farmer and R. B. Buchanan. Mr. McDonald appears as an independent labor candidate.

The Manitoba Liquor Control Act was condemned in a report at the closing session of the Manitoba Methodist conference in which it was declared that six million dollars spent on drink in the province since the act was passed was a criminal waste of money; that the small net profits which the provincial government received was insignificant, and that the act was not mending the business of the bootlegger.

### The Ride of Henri Ledoux

"Ave you eaval' ear me tell habout Henri de Lac St. Pierre? Dat was de boy dat mak de Scotch Dat was de bootleggaire!"

On wan dark night on Lac St. Pierre De win' his blow lak squall, He lost his Ford for all ah's wort' West Scotch for Montreal.

Dees Scotch he 'ave was something fierce  
"I know eet—me who spit,  
He's made from lye, grain, alcohol  
And acid, carbolicus."

De night was dark lak wan black hat  
De win' she blow, blow, blow,  
But Henri gave hoes Ford de gun,  
By ga'—He's mak' her go!

To Montreal hees almost' dere  
When Henri have de qual;  
He's hear "put-put" along de road,  
De hagenta on his trail!

Henri see brav, I tell you choss,  
But hies-cold run hoes blood;  
De Ford's she tough, slow down and stop,  
She's stuck right een de mud.

Henri he curse, he cry "Mon Dieu,  
Now ees this not coasest!  
The hagenta goin' to peach me sure,  
De Ford she's hoot of gas!"

"Put-put, put-put," he's mak priere;  
So near as half a mile,  
And nearer yet day come, and den  
Henri was start to smile.

"By gar!" he say, "Mebbe she'll dol'  
Hies jambe he's geave a span;  
Den queeck he hopen hup some Scotch  
And pour hoom in de tank."

West wan hees rear de Ford she's hoot,  
De hagenta hall cry "Stoop!"  
But Henri cry, "I stop, jamala  
I drive on 'til I drop!"

He's go lak hal, lak cannon ball,  
Lak from champagne de cork;  
Was pass along 'rough Montreal,  
Han' drive tight to New York.

So now Henri was reech man,  
Who leave just lak a Ford,  
Because he find hoes reespo  
Ees better yet for Ford.

De Standard Hall dey hies hoes stuff,  
Heet oot without de law,  
To doos prohibition hagenta, yas,  
Hees giving loud haw-haw.

Moral.

Now hall you petta bootleggaire!  
Dat weech for Henri's class  
Be sure you mak' de home-brew Scotch  
What's good constant' for gas!  
(With apologies to D. H. Drummond)

### EDMONTON EXHIBITION AND STAMPEDE

The Edmonton Exhibition, which has for years held the record of being one of the best agricultural and live stock shows in Canada, has this year included as an added feature, a real Stampede, for which a splendid programme has been arranged, including all the regulation stampede features, with regulations sufficiently stringent to ensure good competition, and broad enough to attract large numbers of competitors. Indians from the Hobbema reserve will also be on hand.

The entertainment programme will also include horse and auto races, fireworks, the best platform attractions that could be secured from New York, midway shows, and many new and novel features.

The Dominion Elks Convention will be held in Edmonton during the week of the exhibition, July 14th to 19th, and this energetic and up-to-date organization are bringing with them four or five bands, and are holding their sessions in the mornings so that they can attend the exhibition in the afternoon; the Edmonton Elks say that there will be "something doing" most of the time, wherever two or three of these fun-loving live wires are "gathered together."

The Dominion Live Stock Branch will have splendid educational exhibits, and are co-operating with the Edmonton Live Stock Exchange in putting on a big educational exhibit; the Provincial Government will also conduct at Edmonton a free baby clinic and big health exhibit; this will be the only point in the province at which this exhibit will be shown this year. The Dominion Postal Branch and the express companies of Canada are putting on big educational exhibits, and a dynamometer to measure the pulling powers of horses is being specially constructed and will be displayed at Edmonton Exhibition; this device was a sensation at the Iowa State Fair last year.

A mine-rescue competition will be staged, open to teams from the area north and west of Red Deer, including events for men's, ladies', boys' and girls' first aid contests.

The camp ground for tourists will be located adjacent to the Exhibition grounds, immediately south, but not in the Exhibition enclosure; tents and cottages will be supplied to those applying for same to W. J. Stark, the manager of the Edmonton Exhibition.

Seven lumber companies have consolidated with the Cranbrook Sash & Door Company to demand an injunction against the L.W.W., restraining them from picketing, molesting or interfering with the companies in their operations. The trial will take place at Cranbrook on July 3rd.

### COLEMAN SCRAPPERS GET THEIR JUST DESERTS

The climax to the wrang which took place at Coleman a week ago last Saturday came on Thursday last, when the parties appeared before the magistrate and received stiff sentences which should serve as a warning to those who feel they can at any time create a disturbance. One Frank Sirek was given two months in which to consider mending his ways. Another, Arid Sirek, a brother, was fined \$20, and each or thirty days in jail. John Stallman received a similar sentence, while Pete Onton had to pay the costs of the court.

The whole affair started when one of the gang, a real trouble agitator called a Bellevue man a scab. The latter at once retaliated fistically, but was set upon and beaten unmercifully with bottles and other weapons and left practically lifeless.

Building permits so far this year at Vancouver total nearly \$33,000,000.

The Board of Railway Commissioners will sit at Lethbridge on July 9th, when representatives regarding train service on this division will be heard.

### FISHERY OVERSEER ISSUES WARNING

We have received a communication from Mr. Joseph M. Holmes, fishery overseer, of Pincher station, in which he wishes to issue warning to anyone feeling inclined to abuse our fisheries. It has already come to Mr. Holmes' knowledge that several fishermen have been in the habit of taking trout and grayling under the size limit, 9 inches long. A small fish this year will, if left alone, be a larger fish next year. Section 34 of the Fisheries Act provides that taking small fish is a punishable offence; it is killing sport for the future. In future the law will be rigidly enforced and any person having small fish will be punished. One party last week was fined \$10 for this offence. Rivers are being stocked every year by the department of Marine and Fisheries, at great cost.

Be sports and help protect the finest game fish in Alberta, and the sport will well repay you.

One Missouri editor asserts that the biggest trust on earth is the country newspaper. It trusts everybody; gets cussed for trusting, mistrusted for cussing, and if it busts for trusting, gets cussed for busting.

MR. COOTE, M.P., FIGHTS FOR  
HOME BANK DEPOSITORS(Copied from Official Report, House  
of Commons Debates).

Friday, June 13. — MR. COOTE: The town of High River I have no doubt has contributed a good many dollars to the revenue of the country; I am not saying anything about that. I know, however, that some work has been done under the vote for harbours and rivers in Ontario which would never have been done if the municipalities had been required to bear any percentage of the cost. But I do not wish to dwell on that feature; we could bring before the committee a good many cases in which money could have been saved to the department in this way. But I do ask the committee to take a fair view of the situation in regard to those towns that are exposed to damage from floods. I want to bring to the attention of the minister the circumstances in connection with the town of Blairmore, where last year at about this time the Old Man river overflowed its banks and the town was flooded. A number of the streets were practically washed away; several bridges were destroyed to the value I think of \$44,000; several of the houses in the town itself had to be moved back from the bank of the river to escape being carried away; the cribbing along the bank of the river for a distance of 2200 feet was

completely washed out; and altogether the town was severely damaged. That town is not financially able to cope with what I think I might term in this case a disaster. If another flood had occurred this year as bad as that of last year there is no doubt in my mind that a considerable portion of the town would have been swept away. The council of the municipality at Blairmore appealed to this government for assistance a year ago, but up to date the department has not seen fit to grant any money to assist in repairing the damage that has been done. The department did send an engineer to Blairmore and he submitted a very complete report of the situation. I am sure that the minister himself is very anxious to give what assistance he can; at any rate he must certainly realize the necessity of granting some money for the erection of the necessary works in the town. His engineer reported that the cost of the dredging and the cribbing which would be necessary to control the river would total \$74,100. I want to ask the committee whether they think that a little town with a population of 2500 could possibly be expected to bear that cost? The West Canadian Collieries, whose works are located there, have offered to do the work for approximately \$50,000. This company operates large coal mines in the town, which is practically dependent on the operations of the mines. The property of the com-

pany has been badly damaged by the flood and for that reason they are willing and anxious to co-operate with the municipality towards the construction of the necessary works so that they will not suffer again in the same manner. I want to point out to the committee, and particularly to bring to the attention of the minister, the fact that this government has collected in coal royalties from this company alone the sum of \$468,400 in addition to lease rentals to an amount of \$35,000, and for coal lands purchased by this company to the extent of \$128,300. This makes a total of \$630,000 which has been paid by this one company at Blairmore. Besides this, the government has received from other companies operating in that district the sum of \$706,000, or a total of \$1,426,699 received directly from the operators of coal mines in the district. I believe that the town of Blairmore and the property owners affected are quite willing to provide a percentage of the cost of constructing the necessary works, but they are unable to shoulder the entire expense. It is for that reason that I am appealing to the committee and particularly to the minister to bring down an amount in the Supplementary Estimates to take care of part of the cost of erecting the protection works along the banks of the Old Man river through the town of Blairmore. I should like to have an assurance from the minister that this will be done.

Just one further word in connection with the work at Blairmore. The town of Blairmore has been hard hit by the Home Bank disaster. The deposits of the people of that town in the Home Bank amounted approximately to \$200,000 and the loans which the bank had there were \$6000, that is \$194,000 more of deposits than loans. Twenty-five per cent. of that has been returned, but the people of that town are still short that seventy-five per cent. The school district of Blairmore, which is part of the town machinery, lost, I think, \$10,000 in that bank failure. The town has been finding it hard to finance its necessary operations since the Home Bank went under, and that makes it all the more important that assistance should be given at this time. There is one fact I did not mention which might further impress the minister

with the necessity of giving assistance to the town in this case. The river runs all the way through the town, following a winding course in several places and making necessary a lot of bridges. In this flood the bridges which were washed out were estimated by the engineers of this government to cost \$41,000. These bridges have to be repaired or replaced, in addition to the works that I have already mentioned. It seems to me that the people of the town are very reasonable in asking the government to put up possibly fifty per cent. of the cost of the construction of these works. I may point out that the same condition exists at Okotoks. It would seem that the property owners first affected might be the Canadian Pacific Railway Company; if that is the case I presume they are quite able to take care of themselves. But it is quite possible that considerable damage might result to the owners of property in that town if the river should change its course even to a very slight degree. I trust that the minister will see that some appropriation is made under which he could, if necessary, give the town of Okotoks some assistance should they suffer from flood next spring. I would again urge upon the minister the necessity of doing something at the town of Blairmore.

Mr. WOODS: Are you to understand that the government is responsible for damage done by freshets and floods where bridges are taken away or land destroyed, and that kind of thing? If so, there will be a lot of requirements in Ontario along the same line.

Mr. KING (Kootenay): No, I do not think we are responsible in such cases.

The secretary of the local school board has notified the deputy minister of education as follows: "I am instructed by the Board to write, urging upon the Department the necessity of a standard textbook upon the following subjects: agriculture, history, hygiene and geography, and also the authorizing of a more satisfactory text in the subjects of grammar and composition, as we are advised by our principal that it is extremely difficult to teach the four first mentioned subjects without such standard text. Trusting to have the favor of your remarks on the subject."

The Blairmore school board will sit as a court of revision on Wednesday, July 9th.

#### CHAPTER I Chance of Morpheus

From the "dign" of the snowbank where he had spent the blizzard night in comparative comfort, Constable La Marr of the Royal Mounted looked out upon a full grown day. The stars that had driven him to shelter had passed, or at least was taking a rest. For once he had got the force he had, even in winter's youth, are but seven hours long, the fault caused him chagrin.

That a "Mountie" in close pursuit of a murderer should have made such a slip was disconcerting, at one to one as La Marr. He found little consolation in the fact that when he had enlisted he was told he had not dreamed of an Arctic assignment, but had expected one of those gayly uniformed details in Montreal or Quebec.

His concern, if the news ever leaked out, was of the kind that would make an immediate superior, Staff Sergeant Russell Seymour. But small chance of that, because he himself was a weakling, or at least, and—test the adage that confession is good for the soul. Seymour, a grimy handsome wolf of the North in command of the detachment post at Armistice, was now two miles ahead on an irksome detail of snow patrol, one that should have fallen to the rookie constable, except for his inexperience.

La Marr stamped out of the snow-hole that had sheltered him and reentered circulation by vigorous gymnastics. Light was his trail equipment, being without sled or dog, he had not suffered, having learned rapidly the first protective measures of the Arctic "cop."

He was about to make a belated breakfast from his emergency pack when his glance chanced toward the north and focused upon a figure headed down the snow drift on a course that would bring him within easy reach.

"Aye, not so hot!" he congratulated audibly. "I get me man by sleeping on his trail!"

He chuckled as he watched the snow-shod Eskimo stumble directly toward the trap he had set for him by chance of Morpheus.

Yet the young constable took no chances. A murder had been committed two days before at Armistice, almost within the shadow of the detachment post. The crime seemed a particularly atrocious one to him from the fact that a white man, a trader's clerk, had been the victim. Any Eskimo who would go to such lengths was either desperate or insane. La Marr had been told upon to be very much on guard as he had edged within the shelter of the snow-trap. He had not, a doubt, thought of the name approaching was his quarry, but he had not been of that quarry's guilt. He wondered if the slogan of the Mountie applied in case one had to deal with an insane inmate. It would be easy and provident to leave the oncoming, undoubtedly unaware of the nearness of a Nemesis.

But the trader's clerk, the Regina school of police that a "Mountie" never fires first is strict and impressive. Constable La Marr could not take a pot shot even with the least hope of wounding the founder.

Next moment the noise caught him, surprise that Avie, the red-handed culprit, was fighting his way back to camp. Big walls, he'd have to risk that thought for this particular murder had been done in a peculiar native fashion that shed no doubt on Avie's how, why, should one so obviously guilty of killing a white man, in a remote, lawless country, be heard to ward the police post from which he had made a clean get-away?

No answer came to La Marr. He merely waited.

The Eskimo floundered on. The constable's movement was neat enough in a country where all is white. It was better even than bush or shrub, for there was no bare ground to be open to suspicion. At just the right second he lunged forward and took the native entirely by surprise. The two went over in a flurry of snow. For the moment the Eskimo struggled heavily, possibly thinking that this fur-clad assailant was an Arctic wolf. But his resistance ceased on recognizing the constable's intent.

La Marr yanked his captive to his feet and searched in weapons, finding none. He did not know he was in the hands of the Ottawa "red book" and pronounced the statutory warning.

"Arrest you, Avie, in the name of the king; warn you that anything you say may be used against you. Dye obedient."

As he asked this last, which is not a part of the official warning, he realized that the Eskimo was not a native. He was a white man, and he was a murderer.

"Barking, sun-dogs, why didn't the fool Lord provide one language for everybody?" he thought. "Any way, there isn't much chance of my understanding anything you may say against yourself. I'll tell all to you when I get you to the post. Now we'll wash!"

"Light—!" granted the Eskimo, seemingly unafraid.

The young constable was puzzled by the prisoner's demeanor. He started at the man, whose stolid expression was heightened by thick lips and high cheekbones. Perhaps the native did not know he was in the hands of the police and on his way to pay for the dreadful crime.

Raising his parka, La Marr disclosed the scarlet tunic which he wore underneath. It was the color of authority in the North. The Eskimo who ever had seen it before could doubt it.

There was no gleam of intelligence in the Eskimo's eyes. He was a white man, and he was a murderer. He was a white man, and he was a murderer.

He was a white man, and he was a murderer. He was a white man, and he was a murderer. He was a white man, and he was a murderer.

He was a white man, and he was a murderer. He was a white man, and he was a murderer. He was a white man, and he was a murderer.

He was a white man, and he was a murderer. He was a white man, and he was a murderer. He was a white man, and he was a murderer.

He was a white man, and he was a murderer. He was a white man, and he was a murderer. He was a white man, and he was a murderer.

He was a white man, and he was a murderer. He was a white man, and he was a murderer. He was a white man, and he was a murderer.

He was a white man, and he was a murderer. He was a white man, and he was a murderer. He was a white man, and he was a murderer.

He was a white man, and he was a murderer. He was a white man, and he was a murderer. He was a white man, and he was a murderer.

He was a white man, and he was a murderer. He was a white man, and he was a murderer. He was a white man, and he was a murderer.

He was a white man, and he was a murderer. He was a white man, and he was a murderer. He was a white man, and he was a murderer.

He was a white man, and he was a murderer. He was a white man, and he was a murderer. He was a white man, and he was a murderer.

He was a white man, and he was a murderer. He was a white man, and he was a murderer. He was a white man, and he was a murderer.

He was a white man, and he was a murderer. He was a white man, and he was a murderer. He was a white man, and he was a murderer.

He was a white man, and he was a murderer. He was a white man, and he was a murderer. He was a white man, and he was a murderer.

He was a white man, and he was a murderer. He was a white man, and he was a murderer. He was a white man, and he was a murderer.

Now, Olespe had been beyond his capture. Big walls, he'd have to risk that thought for this particular murder had been done in a peculiar native fashion that shed no doubt on Avie's how, why, should one so obviously guilty of killing a white man, in a remote, lawless country, be heard to ward the police post from which he had made a clean get-away?

No answer came to La Marr. He merely waited.

The Eskimo floundered on. The constable's movement was neat enough in a country where all is white. It was better even than bush or shrub, for there was no bare ground to be open to suspicion. At just the right second he lunged forward and took the native entirely by surprise. The two went over in a flurry of snow. For the moment the Eskimo struggled heavily, possibly thinking that this fur-clad assailant was an Arctic wolf. But his resistance ceased on recognizing the constable's intent.

La Marr yanked his captive to his feet and searched in weapons, finding none. He did not know he was in the hands of the Ottawa "red book" and pronounced the statutory warning.

"Arrest you, Avie, in the name of the king; warn you that anything you say may be used against you. Dye obedient."

As he asked this last, which is not a part of the official warning, he realized that the Eskimo was not a native. He was a white man, and he was a murderer.

"Barking, sun-dogs, why didn't the fool Lord provide one language for everybody?" he thought. "Any way, there isn't much chance of my understanding anything you may say against yourself. I'll tell all to you when I get you to the post. Now we'll wash!"

"Light—!" granted the Eskimo, seemingly unafraid.

The young constable was puzzled by the prisoner's demeanor. He started at the man, whose stolid expression was heightened by thick lips and high cheekbones. Perhaps the native did not know he was in the hands of the police and on his way to pay for the dreadful crime.

Raising his parka, La Marr disclosed the scarlet tunic which he wore underneath. It was the color of authority in the North. The Eskimo who ever had seen it before could doubt it.

#### "Q" AND "B" GROCERY

Did you ever hear of that sort of a store?

"When I first saw the sign I wondered what it meant. I had heard of college societies with letters that describe them, and I had seen letters like that on music sheets, but whatever could it stand for over a grocery store?"

Perhaps it meant "Quick and Sure" or perhaps it was the name of the men who owned it, only I could not see why they should be ashamed of their name, for some merchants want their name known.

At last, someone told me about "Quality" and "Service." Then I saw what a splendid sign it was.

It made people curious. It was so mysterious-looking, that everybody who saw it and talked about it, and that would advertise it; while the meaning, once found out, made you feel that the store served out quality is worth going to.

Any one who can show that he has quality and service is bound to be in getting acquainted with.

"Think of those two things."

So many hunt after quantity. When I was a very small boy my grandfather told me my uncle was between a nickel and a big copper penny, and I took the penny every time. It was more to hold. I could feel it better.

Every child would rather have a big nickel than a small one, and a big nickel would buy more than a small one. Big things do appear to us—Big money, big power, big big things, and big houses, and big horses and big automobiles, and big men, and I suppose that is why we are so big.

It is wonderful to stand in the mountains and just feel their great height, and as an inspiration to go out to the mountains and stand in some forest corner and look up at those great Douglas firs, that tower up above our heads and spread their branches over a field.

In Vancouver, at Stanley Park, there is no big that makes you back in and have a photograph taken.

But after all, the chief thing is not size, but meaning and character. There are some big vegetables that are so big they are no use. They are soft and overgrown.

So is more important than bulk.

"For the giant ages have the hill and the shore and over me. Make and break and work their will. Though world on world in myriad myriads roll."

Round each with different powers And other forms of life than ours. And know we greater than the soul."

Have you ever gone out on a frosty night and looked up at the stars and thought of the great spaces above you, and that millions of miles off? Did you know that a train travelling one mile every minute could fall off the top of the atmosphere and reach the nearest fixed star? And yet your soul is more important than it all!

"Know the value of a soul immortal? Behold the midnight glories, worlds on worlds, and the dawn of the new day. Amazing pomp. Redoubt this amazement. Ten thousand add, add twice ten thousand, and add more and more. Then weigh the whole; 'on soul out-weighs them all.' And calls the astonishing magnificence Of unimpaired creation poor."

There is a wonderful instrument used by men of science, called a microscope, and it shows us that the smallest things are more wonderful even than the big things you can see with your eyes. The little insect that makes the coral, that is so graceful, is an object of wondrous beauty under a microscope.

When you buy a flower, it is not the biggest you want, it is the richest and loveliest, the one of quality.

"What it makes a man? Not size. That may make a prize-fighter, but who wants to be a prize-fighter? He is muscle and bone and beef, but that is not manhood."

A real man is a gentleman, even if he is not much to boast of in size. The real signs are not those of bigness, but something inside of him—the peculiar quality that makes you honor and love him.

Here is what Margaret Sangster says of it:

"The Little Gentleman I knew him for a gentleman By signs that never fail: His coat was rough and rather worn, His cheeks were thin and pale; A lad who had his way to make With little time for play. I knew him for a gentleman By certain signs to-day."

He met his mother on the street. Off came his little cap. My mother was shut, he walked there.

"Here, boy," said the motorist, "I want some gasoline. And get a move on, you're blocking up the way in the world unless you push. Push is essential! When I was young, I pushed and that got me where I am."

"Well, governor," replied the boy, "I reckon you'd better to push again, 'cause we ain't got no gas in the place."—Forbes Magazine (N.Y.).

If soap is distributed in powdered form throughout the air of a room, and kindled, it will explode with violence.

Easy money is so-called because it is so easy to get rid of.

A man who would try to stab a sheet would stick at nothing.

## BLUE RIBBON TEA

If you telephone merely for tea without specifying BLUE RIBBON TEA your grocer may think you are not very particular—This doesn't pay.

Until I heard his rap. He took the bundle from my hand. And I saw a splendid sign. He sprang to pick it up for me. This little gentleman of ten.

He does not push or crowd along. His voice is gently pitched. He does not fling his books about. As if he were bewitched. He stands aside to let you pass. He always shuts the door. He runs on errands willingly. To force on suit or store.

He thinks of you before himself. He serves you if he can. For in whatever company The manners make the man. At ten or forty times the same. The manner tells the tale. And I discerned in that gentleman By signs that never fail.

I have read of three women who were once talking about pretty hands. Not one of them tested their hands by the size of their hands, and yet they, too, forgot quality. One said she would like to have a hand like milk; another dipped hers in berry juice; and the third washed hers in water.

While they were talking, a poor old woman came and asked for something to eat. They were so busy talking about their hands that they had not thought of her.

(To be continued)

MR. N. A. Reid, Upper Musquodoboish, writes: "I am very thankful for the benefit I have received by using Milburn's Heart and Nerve Pills. When I came home from overseas, in 1920, my heart was very badly affected by concussion, and my nerves were a dreadful wreck. I was very short winded, and could not possibly sleep at night. In fact, I was in such a condition that I did not wish to go to work. I thought I would try Milburn's Heart and Nerve Pills, and before I had taken two boxes I could enjoy a good night's rest as well as anyone.

There are lots of returned men who are suffering the same as I did, and I feel sure if they would only try Milburn's Heart and Nerve Pills they will receive the same relief that I have."

Price 50c a box at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

**Forbids Beekkeeping Within City Limits**

Residents of Petaluma, Cal., Have to Give Up Profitable Industry

The city council of Petaluma, California, widely advertised as the world's egg capital, has passed an ordinance forbidding the keeping of bees within the city limits.

Residents of the city had found beekeeping a profitable industry that could be carried on in backyards because of the profusion of blossoms and flowers hereabouts. Hundreds of hives were distributed about the city. The bees led to the filing of many complaints with city authorities. Children, women and men were stung.

In several instances the bees swarmed in automobiles parked on downtown streets and caused trouble before they could be bidden.

City authorities said they could not determine ownership of bees which stung the citizenry nor could the bees be ordered muzzled as in the case of dogs. The anti-bee ordinance resulted.

His Objection

Vicar's Daughter: "I'm sorry you don't like the vicar's sermons, William. What is the matter with them? Are they too long?"

William:—"Yes, miss. Your curate, 'e's a 'conson', and 'e do conclude. But 'is vicar says, 'lastly' and 'do last.'"

## With The Boy Scouts

Courtesy Spreads Sunshine Because of its origin in kindness of thought, true courtesy means the spreading of sunshine. When speaking before a gathering of Scoutmasters recently, the Hon. Martin Burrell, one of Canada's most experienced public men, declared it his belief that more of the world's unhappiness was caused by small unkindnesses and discourtesies than by the big calamities and sorrows of life.

In business.

The value of business courtesy in business is well known. Most large department stores now have an educational course for the training of young clerks in salesmanship; and this instruction particularly emphasizes courtesy. In fact, courtesy is described as "the foundation of successful salesmanship."

In business or out, however, on the street, the playground, at home, the true Scout is always courteous—because he is a Scout.

Hot Weather Comfort For Autos

An automobile top, exposed to the sun's rays, absorbs an amount of heat that renders it rather uncomfortable for the occupants, especially during the summer time. Experience has shown that the application of a coat of aluminum paint to the under-side reduces the absorption of heat to a great extent, and painting the outside with the same kind of paint helps still more. Practically one-half of the heat absorption can be prevented by applying aluminum paint to either side or outside—Popular Mechanics.

Autos Are Luxuries In Japan

Automobiles are regarded as luxuries in Japan. A license for the cheapest kind of car costs about \$200. Gasoline—heavily taxed—means an expense of approximately \$1 a gallon.

Names in the London city directory: Gotsch, My, Muckle, Whiff, Ohno, Cops, Slopper and Looney.

## Local and General Items

H. E. Beattie was up from Lethbridge the early part of the week.

Miss Lucy Hinds is down from Calgary for a few days' visit with her parents.

Magistrate Gresham is this week attending the Camp of Strathcona Horse at Sarcee.

Blairmore, with her bag and baggage, will be found in Macleod on Tuesday next.

Mr. and Mrs. Dave Hutton and Mr. Hugh Hutton, of Bellevue, were visitors in town on Tuesday.

The marriage of Miss Edythe Biggs to Mr. Roy Kirkpatrick, both of Fernie, took place at Fernie recently.

The installation of officers of the Blairmore Lodge No. 68, I.O.O.F., will likely take place at the regular meeting of July 8th.

A cargo of one million feet of British Columbia lumber recently left Vancouver for Newfoundland, via the Panama Canal.

A short railroad over the Cordillera mountains in Bolivia, South America, makes a drop of 11,614 feet in less than 47 miles.

The complete skeleton of a man who lived 5000 years ago has been discovered near-Gottenburg, Sweden, where it is now on exhibition.

AJAX COAL—We are having our second car of the above coal from Medicine Hat coming in the first of next week. Send orders to W. M. Bush, Phone 298.

Frank Flett, plumber and steamfitter, of Cardston, was a visitor in the district during the week, looking over Coleman with a view to locating there.

We understand that Miss M. Davis, assistant principal, will resign her position with the local school, to return to Nova Scotia, where she will enter upon a new course of study.

Stanley O'Genaki, well known as one of the star players of the Trail intermediate hockey team, was very seriously hurt near Detroit, Mich., when an auto he was driving turned over four times before stopping.

The local schools close tomorrow to re-open on or about Monday, August 25th. Some of the teachers will for a few weeks be engaged marking papers at Edmonton, others will repair to their homes for the holidays.

Edmonton Commercial Graduates, Girls' Basketball Team, world champions, left last week for the Olympic games in Paris, France, where they will represent Canada in their particular branch of sport.

Sunday last was observed by local Oddfellows and Rebekahs as Memorial Day, and the usual programme of decoration of graves took place during the afternoon. Despite the rain, there were fully sixty members in the procession that wended its way to the cemetery by the hill. Here the roll call took place and flowers were planted upon the graves of two sisters and about six brothers. Quite a number were present from Bellevue and Coleman. Returning to the hall, refreshments were served.

Some of the bridges that had been swept out along the North Fork river by the floods last year have been replaced this season and it is now possible to go by auto to near the foot of Dutch Creek. The government is yet undecided as to whether to bridge Dutch Creek or replace the big curdroy structure that spanned the Livingstone near that point, but in all probability Dutch Creek will be bridged and a trail to the Northwest Branch opened up along the west side of the Livingstone. In the meantime it is thought that the Livingstone will be sufficiently shallow to permit foraging.

People who are all wrapped up in themselves generally make a small package.

Gradually women are being driven out of politics and back to the home where they really belong.

Apparently the whale had no great trouble with Jonah, but some people these days seem to find it difficult to swallow the story.

Mr. J. J. Murray, C.P.R. agent at Frank, together with his family, are enjoying an annual vacation. Mr. Murray is being relieved by Mr. H. E. Tustian.

Dr. Lillie, dentist, spent a busy day "fishing" last week end. In Benson's "gap" he secured twenty-two of the molar variety, and claimed that they were all game to the finish.

The regular meeting of the town council took place on Monday night last. Beyond the passing of a large number of accounts, very little business was transacted.

An exchange of Canadian ministers with preachers from other countries was advocated in the report of the ministerial section of the Toronto Methodist conference and carried by an overwhelming majority.

The East Kootenay Power Co., who have developed 8000 horsepower from Bull River and lately an additional 15,000 horsepower from the Elk River, are considering extending their power lines to Lethbridge and Taber.

An interesting intermediate baseball game took place on the athletic grounds last evening, the teams being Hillcrest and Blairmore. Blairmore won a football offered by a Mr. Smith, defeated the visitors 5 to 3.

The Edmonton Newsboys' Band, the only Canadian band granted an engagement at the British Empire fair at London, leave for overseas this week. The engagement of the band is for six weeks at the fair, and the band will also play at other parts of Britain.

An appeal for cremation in preference to burial is being advanced in an educational campaign in British Columbia by the Cremation Society, which is reaching out for a province-wide movement. It is claimed that cremation is more hygienic and economical. Its advantages are being propagated through literature throughout the province. The only crematorium in the province is in Vancouver.

One night recently an Italian woman coming out of the Orpheum theatre stepped on a banana peel the moment she took the doorstep. Her feet shot up where her head had been and she spread prostrate on the pavement. Recovering herself, she staggered to her feet remarking, "Me wants come out queek, but not so queek!"

"My Goodness!" remarked the old gentleman, as he stopped the young lad with the fine catch of trout. "You've had a very successful day, young man. Where did you catch all these fish?"

"Just walk down that path marked 'Private,'" directed the boy, "cross the field with the notice board reading 'Beware Of The Bull,' and keep right on till you come to a notice 'Trespassers Will Be Prosecuted.' A few yards further there's a fine pool in the river marked 'No Fishing Allowed,' and there you are, sir!"

UNION SUNDAY SCHOOL PICNIC NEXT WEDNESDAY  
The annual picnic for the children and teachers of the Union Sunday School will be held on the athletic grounds on Wednesday afternoon next. There will be a big program of contests, foot racing, jumping, football, basketball, baseball, etc. A special feature will be staged at 6 p.m., when a team from Pincher Creek will play a junior team at baseball.

Drumheller may have an annual stampede starting next year.

G. F. Johnson, municipal auditor, is in town this week.

Nanton's municipal tax rate has been set at 33 1/2 mills.

Mrs. S. Knapman returned yesterday from a few days' visit with friends in Lethbridge.

FOR SALE—Shetland Pony, saddle, harness and buggy. Apply O. E. S. Whiteside, Coleman.

A bachelor has some advantages, but who is there to make up his mind for him?

Relatives are people you visit when heat makes the task of cooking at home unbearable.

The regular monthly meeting of the Board of School Trustees will be held at the school house tomorrow night.

Mr. D. E. McLean, of Claresholm, arrived here last week to take a position in the local vendors' store.

William Hilsabeck, a Lone Butte farmer, is to hang on September 30th for the murder of his seven-year-old son.

A CASH REGISTER AND REMINGTON NO. 10 TYPEWRITER, and a Paper Cutter for sale. Apply to The Enterprise.

Mrs. D. May left this morning for the Pacific coast, where she will spend a few weeks in the hope of bettering her health.

Mr. and Mrs. Frank A. Beebe arrived from Regina on Saturday morning last to spend a few weeks with their father, Capt. W. A. Beebe.

Prize lists for the 1924 season exhibition of the Bellevue and District Horticultural Club are now in course of execution by The Enterprise.

Six of the Montreal bandits, who held up and murdered Bank of Hochelaga messengers, have been found guilty and sentenced to hang.

Cosy stalls were installed in the beer room of the Cosmopolitan hotel this week, the work of Pozzi's cabinet shop.

Wah Lee, of the Miners' Cafe, Bellevue, left by auto yesterday for Kimberley, where he has taken over a large rooming-house and restaurant. Wah's Bellevue restaurant is being run by his brother.

A whole host of Oddfellows and Rebekahs attended a meeting in the L.O.O.F. hall at Bellevue last night, at which a farewell was tendered to their brother and sister, Rev. Harry and Mrs. Peters, who are leaving next week for their new home near Edmonton.
